Languages

- Italian : Mother tongue
- English : Good knowledge reading ,
           Basic knowledge writing
- French : Basic knowledge writing and speaking

Computer Skills

- **Operating Systems Development**

  - Development on Linux   Level: Good(4 years)
  - Development on Windows (XP/Vista/7)   Level: Good(5 years)
  - Development on Mac Os   Level: Good(1 year)

- **AdministrationLinux servers**

  - I'm able to configure Linux(Debian, Centos)   Level: Basic(> 2 anni)
    server for web development
    with all the necessary services.
    (Apache, PHP, Java, Tomcat, MySQL, FTP
    , Ruby,RoR, rubygem, passenger, git, svn)

    However, not having enough knowledge about
    security,i'm not able to set up production
    machines.

- **Languages**

  - **Programming** Languages:

    Java: Level: Good(5 years)

    Frameworks:
    - Struts (1 year)
    - JPA, Hibernate (2 years)
    - Swing (1 year)
    - Spring (MVC, security), (<1year)

    Java on Android: Level: Discrete(> 2 years)

    Groovy for development: Grails   Level: Fair (~ 1 year)

    Scala   Level: Basic (~ 4 months)
    (Lift, Play!, Squeryl, Scala on Android)

    Ruby On Rails   Level: Basic (~ 4 months)

    PHP: Level: Fair (> 2 years)
    (only for development of Drupal CMS)

    JavaScript (CoffeeScript):   Level: Good(4 years)
    Frameworks: (jQuery,jQueryUI,JqueryMobile)

  - **web languages (Frontend)**

    HTML   Level: Good(4 years)
    CSS (LESS, SCSS)   Level: Good (4 years)

  - **database**

    SQL(MySql)   Level: Good (4 years)
    MongoDB   Level: Basic

- **Analysis and Design**

    - UML   Level: College
    - diagram and ER diagram Logic   Level: University

- **Development Tools**

    - NetBeans   Level: Good (3 years)
    - Eclipse   Level: Good (3 years)
      (EclipseJ2EE, ScaLais , RadRails,
      AndroidToolkit, SpringToolSuite)

- **Drupal**

    - Version 6   Level: Discrete(> 1 year)

Interests

After working for some times with Java on different platforms (Swing, Android, J2EE)
and a bit of experience with PHP CMS (Drupal 6 and Wordpress),
i developed a strong interest in modern , mutliparadigm , programming languages ,
like Ruby, Scala, Groovy and in general
for all the technologies and methodologies of the new generation
TDD, BDD, Rails, Grails, Lift, NoSQL (Mongo), NodeJS, Akka, CoffeeScript, Sass ....

Professional Experience

- **September 2012 - November 2012**
  Online Course "Principles Functional Programming in Scala" supported by EPFL, Martin Odresky

  course of functional programming in Scala, promoted by the 'EPFL, held by Martin
  Odersky, the founder of Scala, through the platform Coursera.
  The course presents the programming language Scala applied to functional
  programming.

- **Apr. 2012 - now**
  Tech Lead - Java, Groovy, PHP Programmer
  at GreenConsulting, Terni

  In addition to the development of Android applications on both the client and server
  side, i'm responsible for the selection of technologies used within the company
  and support for everything related to web development.

- **May 2010 - April 2012:Analyst Programmer Java, Groovy, PHP**
  at GreenConsulting, Terni

  Developer Java on Android Platform
  Developer Java Web
  Grails Developer

  for Android Apps Development entire project, from 'Administration Web application
  itself.

In addition, i've developed a series of test applications to offer services based on geolocation, as the search for Metro, Taxi and Additionally
parking.I work Test and selection of technologies to be used in the development of new projects.

- **Apr. 2008 - Oct.** 2009: **Analyst Java programmer**
  at Trendiweb-Digitalmedia, Orte, a

  company which is mainly engaged in the development of Web applications in general, and WAP mobile devices, such as contests or sites for downloading multimedia content, provided the most important companies in the sector.

- **November 2007 - March 2008: Stage**
  at Trendiweb SRL, Orte,
  to develop a web application in Java that allows to download multimedia content via videophone.

- **Other experiences**
  I have developed applications and Web Desktop for private clients, and some personal web sites using the Drupal CMS and Ruby On Rails.
  inform me and text constantly technologies of all kinds, both desktop and web, to always have an overview of the evolution of software and development models, here are some examples of technologies that I tested:

  ActionScritp
  C # (. NET FrameWork and Entity FrameWork)
  RoR
  JQueryMobile
  Play!FrameWork
  Spring
  Ejb
  JSF (IceFaces)
  SpringRoo
  MongoDb
  Joomla
  Titanium
